And Why You Should Know

BETTER UNDERSTAND OTHER PEOPLE

No personality type is "better" than any other—just different. And each perspective brings something new and interesting to the table.

KNOW WHICH SITUATIONS ARE IDEAL FOR YOU

Knowing what might work best for your type can give you new ideas on how to solve problems, deal with stress, cope with conflict, and manage your work habits.

RECOGNIZE YOUR STRENGTHS AND WEAKNESSES

Identifying your strengths and weaknesses will help you know where you fit in a team. You may be good at something that someone else is not and vice versa.
